

LIST OF STEERING COMMITTEE MEMBERS

Government

Ms Therese Wagle Bazard, Counsellor, Royal Norwegian Embassy, India
HE Mr Dasho Paljor J Dorji, Advisor, National Environment Commission, Govt of Bhutan, Bhutan
Prof. Theo JJ Groothuizen, Counsellor for Science and Technology, Royal Netherlands Embassy, India
Dr Ajay Mathur, Director General, Bureau of Energy Efficiency, India
Mr Jayant M Mauskar, Additional Secretary-CC, CDM, UNFCCC, Ministry of Environment and Forests, India
Mr Manjeev Singh Puri, Joint Secretary, UNES, MEA, India

Institutions/NGOs

Mr Borge Brende, Former Minister for Trade and Industry and Managing Director, World Economic Forum, Switzerland
Ambassador C Dasgupta, Distinguished Fellow, Center for Global Agreements, Legal and Trade, TERI, India
Mr Gourisankar Ghosh, CEO, FXB India Suraksha, India
Dr Prodipto Ghosh, Former Secretary, MoEF and Distinguished Fellow, TERI, India
Dr Kazuhiko Takeuchi, Vice President, International Relations, University of Tokyo, Japan
Prof. Wei Zhihong, Deputy Director, Global Climate Change Institute, Tsinghua University, China

Multilateral/Bilateral

Mr Francois Binder, Country Director, SDC, India
Mr Yvo de Boer, Executive Secretary, UNFCCC, Germany
Mr Charles J Cormier, Team Leader, Environment and Water Resources, SASDI, The World Bank, India
Mr Nitin Desai, former Under Secretary General, United Nations, India
Mr Guenter Dresrusse, Country Director, GTZ, India
Ms Aban Marker Kabraji, Regional Director, Asia, IUCN - The World Conservation Union, Pakistan
Dr Djordjija Petkoski, Program Leader-PSD and Corporate Governance, The World Bank, USA
Mr Achim Steiner, United Nations Under Secretary General, Executive Director, UNEP, Kenya
Ms Surekha Subarwal, Regional Communications Adviser-South Asia, UNDP, India
Mr Xianbin Yao, Acting Director General, Asian Development Bank, Manila, Philippines

Corporates

Ms Lorraine Bolsinger, Corporate Vice-President, General Electric, USA
Mr Jean-Paul Bouttes, Executive Vice President, Corporate Strategy, Perspective and International Affairs, EDF (Electricité de France), and CEO, Sherpa, France

Dr Jamshed J Irani, Director, Tata Sons Ltd, India
Mr K C Mehra, Resident Director, Shapoorji Pallonji Group, India
Mr Herman Mulder, Former Senior Executive Vice-President, Group Risk Committee, and Co-Chairman, ABN-AMRO BANK, NV, The Netherlands
Mr Nandan M Nilekani, Co-Chairman, Infosys Technologies Ltd, India
Mr Deepak SParekh, Chairman, HDFC Ltd, India
Mr Masayuki Sasanouchi, Senior General Manager, Environmental Affairs Division, Toyota Motor Corporation, Japan
Mr Michael P Schulhof, Chairman, Global Technology Investments, LLC, USA
Mr Steven D Smith, Senior Managing Director, Ritchie Capital, USA
Mr Björn Stigson, President, WBCSD, Switzerland
Ms Malini Thadani, Head Group Communication and Corporate Sustainability, HSBC, India
Mr Georges Valentis, Managing Director, Institut Veolia Environment, France

Media

Dr Sanjaya Baru, Media Advisor to Prime Minister's Office, Government of India, India
Mr Nik Gowing, Main Presenter, BBC News, UK
Mr Shailesh Rao, MD, Sales and Operations, Google, India

DSDS 2008: a snapshot

DSDS 2008 brought together distinguished speakers and researchers from all over the world. They addressed key issues on climate change and suggested the way forward. The summit stimulated debate and discussions, which provided innovative ideas and outlined course of action including technological changes and advancements feasible through public funding, demonstration projects, and public-private partnership.

Delhi Sustainable Development Summit

Towards Copenhagen: an equitable and ethical approach

5–7 February 2009
 Hotel Ashok, New Delhi, India

CEO Forum
 4 February 2009

SPECIAL ATTRACTIONS

- International climate change exhibition
- Screening of films on climate change
- Africa day
- Young global leaders meet
- Sustainable Development Leadership Award
- Live performance: Tabla Maestro Ustad Zakir Hussain

SPECIAL EVENTS

As precursors to DSDS 2009, special events will feature sectoral themes relevant to climate change adding great value to the discussions. Some of the likely themes are as follows.

Scaling up renewable energy and energy efficiency in South Asia: a focus on financing and investment, 4 February 2009, REEEP (Renewable Energy and Energy Efficiency Partnership), *Contact: Sonya Fernandes (sonya@teri.res.in)*

Localization Programme on environmental business and supply base in India, 3–4 February 2009, EuroAkadem-Academy for European Management GmbH, Germany, *Contact: Elen Meder (elenmeder@euroakadem.com)*

***Emerging economies and sustainable development: India as a case study**, 3–4 February 2009, 21st Century Trust, *Contact: Madhu Madhavi (madhum@teri.res.in)*

***Energy transformations for Asia: responding to energy security and climate challenges**, 6 February 2009 (tentative), a joint event of CERES/AEI/MEA, TERI, supported by Khemka Foundation, *Contact: Deepti Mahajan (deeptim@teri.res.in)*

***Emerging technologies in developing countries: capabilities and governance issues**, 5/6 February 2009 (tentative), Science and Technology Area, TERI, supported by IDRC (International Development Research Centre), *Contact: Nupur Chowdhury (nupurc@teri.res.in)*

***Negotiators' round-table: way forward to Copenhagen**, UNFCCC (United Nations Framework Convention on Climate Change), *Contact: Annapurna Vancheswaran (avanche@teri.res.in)*

***Carbon capture and sequestration: the state of art in India and abroad as well as the potential for further development**, 4 February 2009, GROCC (The Global Roundtable on Climate Change), *Contact: Shriya Ramchandran (shriyar@teri.res.in)*

***Barriers to technology transfer**, The British High Commission, *Contact: (shriyar@teri.res.in)*

***Forestry and climate change issues**, 4 February 2009 (tentative), Forestry and Biodiversity Area, TERI, *Contact: Varghese Paul (vpaul@teri.res.in)*

Please note: Themes and dates for special events are tentative and subject to change. Events with asterisks () are through special invitation only.*

DELHI SUSTAINABLE DEVELOPMENT SUMMIT

The DSDS (Delhi Sustainable Development Summit) is an annual flagship event of TERI being organized since 2001. It is a global forum that seeks to provide long-term solutions for sustainable development. It has witnessed participation by global stakeholders including heads of state/government, ministers, and dignitaries comprising Nobel laureates, development practitioners, scientists, academicians, and corporate leaders from across the world.

DSDS 2009

The summit in 2009 would seek to reinforce the climate change agenda of the previous year. It would sharpen the focus on the theme **Towards Copenhagen: an equitable and ethical approach**, to arrive at a global consensus on climate change beyond 2012. Industry leaders, opinion-makers, and climate change experts will gather to create a uniform level of understanding among all stakeholders and formulate meaningful policy options for a constructive dialogue on climate change and try to arrive at an agreement.

SPECIAL FEATURES

International Climate Change Exhibition

The DSDS 2009 will revisit the ICCE (International Climate Change Exhibition) of last year, offering a credible platform for companies to display their new technologies, products, and services driven towards addressing adverse effects of climate change.

Screening Films on Climate Change

Filmmakers, governments, and institutes from both India and overseas are invited to participate in TERI's first-ever screening of FCC (Films on Climate Change). Films on how climate change has impacted food security, biodiversity, water, and livelihood will be screened during the summit.

Africa Day

A large ministerial delegation from Africa is expected to participate in the forthcoming summit. The session on Africa will help generate new thinking towards improving the quality of collective action and responses to adaptation and mitigation. Focus will be on global and regional cooperation and partnership on climate change.

Young Global Leaders Meet

University/college students from around the world will be in attendance to learn from leading global thinkers, Nobel laureates, heads of state/government, and business leaders about emerging climate change issues.

Lighting a Billion Lives Campaign

TERI's LaBL (Lighting a Billion Lives) campaign aims to promote the use of solar devices through dissemination of solar torches and solar lanterns to households in villages without electricity. During the summit, TERI will be announcing the new Ambassador for this campaign.

Sustainable Development Leadership Award

The Sustainable Development Leadership Award, instituted by TERI in 2005, is presented every year in recognition of significant contribution towards the cause of sustainable development. TERI will be announcing its fifth Sustainable Development Leadership Award in next year's summit.

Live performance by Tabla Maestro Ustad Zakir Hussain

CEO Forum: inaugural session

CEO FORUM 2009

Curtain raiser to DSDS

It is the most popular feature of DSDS. The CEO Forum will focus on the theme **Climate Change: perspective from the change makers in business**. It will review issues and address the challenges businesses are likely to face due to climate change. Focus will be on 'how' and 'why' green is good. Business opportunities in the emerging scenario will be examined. Action on energy efficiency, introduction of clean technologies, finance, insurance, changes in business lifestyles, and host of other unexplored areas will be discussed in this forum.

DSDS 2009 SUB-THEMES

- Climate change challenge: engaging all stakeholders for global consensus**
 - Deliberate on ethical and equitable dimensions
 - Multi-stakeholder approach based on CBDR (common but differentiated responsibilities) principle.
 - Reference to IPCC (Intergovernmental Panel on Climate Change), BAP (Bali Action Plan), and other international processes.
 - Focus on the imperatives provided by the scientific assessment of the IPCC, the momentum of Bali and Poznan and opportunities for business.
- Global finance and technology transfer**
 - Finance and technology transfer to strengthen adaptation practices and facilitate low carbon growth in developing countries.
 - Countries both developing as well as developed to meet 'measurable, verifiable, and reportable' criteria based on equity principles.
 - Specific scenarios involving different regimes for the above issues will be presented and discussed.
- Adaptation to climate change impacts**
 - Strengthen the capacities of developing countries
 - Understand adaptation needs
 - Identify priorities and undertake adaptation action
 - Special focus on key vulnerabilities and global responses to assist developing countries in creating adequate capacity for adaptation.
- Mitigating GHG emissions**
 - Deep cuts in emissions in the new agreement
 - Measuring and monitoring GHG emissions in absolute or per capita basis and its implications.
 - Develop consistent and transparent methodology to measure and reduce emissions.
 - Discuss and evolve concrete action plans for the term 'measurable, quantifiable, and nationally appropriate' climate change mitigation policies of Bali plan.
 - Avoided deforestation as a mitigation option
- Develop national and international policies focusing on avoided deforestation.**
- A common approach agreement to look into the advantages and concerns of forest resources conservation as a means to reduce emissions.**
- Co-benefits of avoided deforestation as a mitigation option and concerns regarding land-use issues.**
- Scope and opportunities provided by REDD (Reducing Emissions from Deforestation in Developing countries) at the World Bank, its progress since Bali, and its strategies for an outcome at Copenhagen 2009.**
- Incentives for conservation such as SFM (sustainable forest management), in the form of compensated conservation through market mechanism or funds.**
- Specific countries affected by deforestation to provide insights regarding particular policies.**
- Dealing with impacts, adaptation, and vulnerability: the challenge for Africa**
 - Create capacity by which various parts of Africa could assess specific impacts of climate change and come up with adaptation measures.
 - Focus will be on agriculture, rural development, land, and desertification.
 - Role of international organizations and the global community
- Media: editorial on climate change**
 - An exclusive editors' panel highlighting media's response to climate change.
 - Discussions on sustainable lifestyles and technologies
 - Feedback survey, before and during the summit, to analyse individual life styles and measure individuals' willingness to change.
- Imperatives of change process: Bali-Poznan-Copenhagen**
 - Review existing international process to frame post- 2012 climate change regime.

SPONSORSHIP OPPORTUNITIES

Presence of eminent and distinguished scholars, opinion-makers, and large businesses at the summit would offer a unique opportunity for hosting different events. Prospective sponsors could choose from any of the five partnering categories that offer unmatched benefits.

Categories

- Star summit partner
- Premier partner
- Senior partner
- Associate partner
- Co-associate partner

Benefits

- Participation in DSDS and CEO Forum 2009
- Complimentary participation in LaBL campaign
- Participation in build-up events
- Complimentary stall at the ICCE
- Prominent logo placement at the venue, website, backdrops, and banners.
- Endorsement and recognition on all media exposures
- Prominent logo placement at dinner/lunch sessions
- One full-page colour advertisement or organization profile in the summit documentation folder.
- Complimentary advertisement in print/electronic media

Build-up events

In its first-ever initiative, TERI will be organizing build-up events preceding the DSDS 2009 in **Guwahati, Mumbai, and Bangalore** to generate nationwide awareness on climate change. It endeavours to bring leaders, opinion-makers, and climate change experts together on a common platform for a constructive dialogue on these emerging issues. Supporting these events will enable your organization in

positioning itself as a market leader in the climate change sector.

Function host

DSDS lunch, dinner, and coffee breaks offer excellent opportunity for launches, announcements, and promotions by businesses, organizations, and institutions. Being a sponsor for a function will provide your organization high visibility and strong corporate branding.

Associate Media Partners 2009

- Reuters
- Climate Action
- Renewable Energy World

INTERNATIONAL CLIMATE CHANGE EXHIBITION

The summit will once again host the ICCE (International Climate Change Exhibition) with a much larger participation in 2009.

Why attend?

- An excellent platform for exhibitors to demonstrate new environment-friendly technologies, products, and services that facilitate low carbon growth.
- Create awareness among the general public on ways to mitigate adverse impacts of climate change caused due to anthropogenic activities.

Who should participate?

Organizations who can

- demonstrate new technologies, products, and services aimed at mitigating greenhouse gas emissions;
- showcase examples of successful transfer of technologies for greenhouse gas reductions;
- build capacity and knowledge on climate change among different stakeholders; and

- enlighten activities that can contribute towards effective adaptation in addressing climate-related risks based on solution-oriented mode.

When and where?

- It will be held during 4-7 February 2009 at Hotel Ashok, New Delhi.

Benefits

- Complimentary registration at DSDS 2009
- Half-page organization profile in the summit documentation folder.
- Prominent placement of company logo at the venue
- Inclusion of company's name in the list of exhibitors at the venue, website, brochures, and other outreach materials.
- High-level media exposure

International Climate Change Exhibition 2009

February 4 - 7, 2009, New Delhi
Swimming Pool Lawn, Ashok Hotel, New Delhi

Exhibition Floor Plan
