The Global Challenge of Resource Efficient Growth and Development
13th DELHI SUSTAINABLE DEVELOPMENT SUMMIT
9th January 2013
New Delhi, India

As the global civilization steers onto the path of development, the demand for energy at all scales is increasing at an alarming rate. This has led to the discovery of new sources of energy and technologies that can help in more efficient use and conservation.

The upcoming edition of the DDS Summit will be held in New Delhi, India, on January 9th, 2013. The event will bring together leaders from various sectors to discuss sustainable development solutions.

October 2012
