

Charlotte Pera

Charlotte joined the ClimateWorks Foundation as president and chief executive officer in 2012. Prior to ClimateWorks, Charlotte served as senior vice president and director of US programs at the Energy Foundation. Charlotte also directed the Energy Foundation's US transportation program, helped launch the Energy Foundation's transportation program in China, and served as a special advisor to the European Climate Foundation during its start-up phase.

Earlier in her career, Charlotte analyzed advanced vehicle technologies, developed emissions inventory models for marine vessels and non-road equipment, and designed public programs to reduce vehicle pollution at engineering consulting firm Acurex Environmental (1991 to 1999).

Charlotte serves on the supervisory board of the European Climate Foundation and served for many years as a founding board member of the International Council for Clean Transportation. Charlotte holds B.S. and M.S. degrees in mechanical engineering from Stanford University.
